FATAL FACTS

ELEVATOR INDUSTRY WORK PRESERVATION FUND 7154 Columbia Gateway Drive, Columbia, MD 21046

Fatal Facts

1) In this packet you will find a brief description of an accident involving an Elevator Constructor.
2) The scenario is recreated in part from an OSHA report.
3) The photo is not a part of the OSHA report but is intended to give a visual representation of the location of the accident.
4) Separate the class into groups of 4-8 people. It's recommended that one company representative sits and participates with each group.
5) Write in YOUR Individual Recommendation and Prevention, then you will have a class discussion about the individual recommendations. After the class discussion, you will Research your Company Safety Policy and fill in the Company Recommendations and Preventions followed by a discussion about the company policy and procedure.

6) DO NOT WRITE YOUR NAME ANYWHERE IN THIS BOOKLET

They are for safety awareness purposes only and should not be read to suggest or imply any legal causation, responsibility or liability on the part of any person or entity. They may not be used for discipline of any employee."

Fatal Fact #13

Brief Description of Accident: (Per the OSHA report)

A mechanic was installing a new elevator sling from the ground level. He was standing on the fourth rung of an 8-ft ladder at a height of approximately 45 in. and was using wrench to tighten the bolts on the new elevator sling. The wrench slipped off one of the bolts causing him to fall off the ladder and land on a metal access ladder leading to the elevator pit. The metal access ladder had an exposed end of approximately 5.5 in. that impaled him. The mechanic was transported to the hospital and died upon arrival.
