FATAL FACTS

ELEVATOR INDUSTRY WORK PRESERVATION FUND 7154 Columbia Gateway Drive, Columbia, MD 21046

Fatal Facts

1) In this packet you will find a brief description of an accident involving an Elevator Constructor.
2) The scenario is recreated in part from an OSHA report.
3) The photo is not a part of the OSHA report but is intended to give a visual representation of the location of the accident.
4) Separate the class into groups of 4-8 people. It's recommended that one company representative sits and participates with each group.
5) Write in YOUR Individual Recommendation and Prevention, then you will have a class discussion about the individual recommendations. After the class discussion, you will Research your Company Safety Policy and fill in the Company Recommendations and Preventions followed by a discussion about the company policy and procedure.

6) DO NOT WRITE YOUR NAME ANYWHERE IN THIS BOOKLET

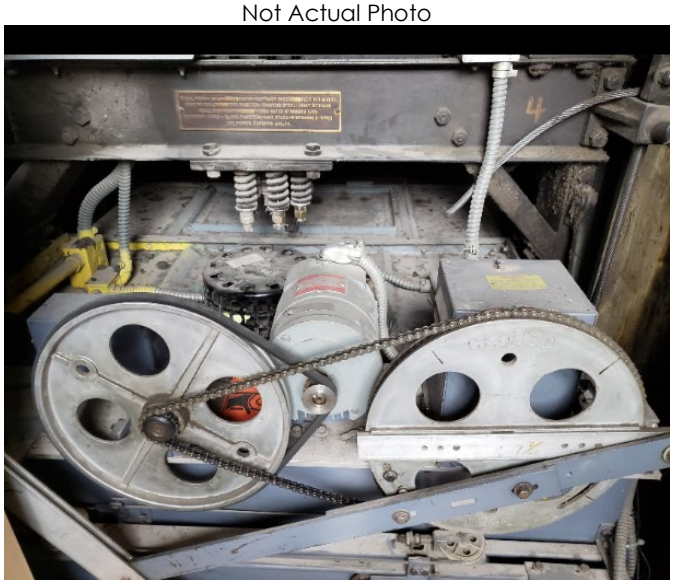

Disclaimer; "These Fatal Facts are to be presented in group settings. The facts presented are based on accounts in OSHA reports of actual incidents. They are for safety awareness purposes only and should not be read to suggest or imply any legal causation, responsibility or liability on the part of any person or entity. They may not be used for discipline of any employee."

Fatal Fact #22

Brief Description of Accident: (Per the OSHA report)

A mechanic was adjusting the elevator door speed and open times while the elevator control switches were set to the run and on modes versus the inspection mode. The mechanic entered the elevator shaft to work on the GAL model MODL elevator door operator while on the elevator car top and removed the cover to the door operator. The employee was electrocuted when they contacted an energized 300 VDC 2-amp GAL door. The mechanic was found with their head resting on the electrical contacts.
